

ATHMAKURI SAITEJA

Full Stack Developer — Database Developer — ERP Systems

saitezathmakuri2003@gmail.com — +91 8309229402

linkedin.com/in/saitejaathmakuri/ — github.com/SAITEJA-012 — Hyderabad, India

Professional Summary

Software Engineer with experience in Oracle PL/SQL development, ERP systems, cloud migration, and full-stack application development. Skilled in designing database solutions, automating migration processes, and developing enterprise applications using Java, Spring Boot, Angular, and Oracle Database.

Work Experience

Associate Trainee — *ShipConsole, Hyderabad* Feb 2026 – Present

- Designed and optimized Oracle PL/SQL procedures, functions, and packages for ERP modules, reducing manual migration effort by 40%.
- Automated client on-premise to cloud database migration workflows while preserving custom business logic and database configurations.
- Developed and maintained Spring Boot services integrated with Oracle ERP data layers. Built Angular and PrimeNG UI components, improving application usability and reducing reported UI issues by 25%.
- Collaborated with cross-functional teams using Git-based workflows and AWS-hosted environments.
- Promoted to full-time Associate Trainee after 3-month internship based on consistent delivery and technical contribution.

Intern — *ShipConsole, Hyderabad* Nov 2025 – Feb 2026

- Gained hands-on experience in PL/SQL scripting, ERP data structures, and cloud database operations.
- Assisted senior developers in writing migration scripts and validating data integrity post-migration.
- Contributed to Angular front-end tasks and learned the ShipConsole ERP product architecture.

Technical Skills

- **Languages:** Java, Python, SQL, PL/SQL
- **Frameworks:** Spring Boot, Angular, PrimeNG, TensorFlow/Keras, OpenCV, JDBC
- **Web Technologies:** HTML, CSS, JavaScript, TypeScript
- **Databases:** Oracle DB, MySQL, Microsoft SQL Server
- **Cloud & DevOps:** AWS (Cloud Essentials), Git, GitHub
- **Tools & IDEs:** SQL Developer, DBeaver, Eclipse, STS, VS Code, Power BI, ServiceNow
- **ERP Platforms:** Oracle EBS, NetSuite, JD Edwards (JDE), Supply Chain Management (SCM)

Projects

Library Management System

- *Stack:* Java, MySQL, JDBC, HTML, CSS, JavaScript
- Developed a database-driven application for managing books, users, issue/return workflows, and fine calculations.
- Implemented automated notifications and optimized database operations, improving system efficiency by 35%.

Food Recognition and Calorie Estimation using AI

- *Stack:* Python, TensorFlow/Keras, OpenCV, MobileNetV2
- Developed a deep learning model achieving 92% classification accuracy for food recognition and calorie estimation.
- Published and presented research at ICMDRI, ranking among the top 15% of submissions for innovation.

Real-Time Traffic Surveillance System

- *Stack:* Python, OpenCV, YOLOv7, TensorFlow
- Built a real-time vehicle detection and monitoring system achieving 96% detection accuracy using YOLOv7.
- Improved frame-processing performance by 30% through multithreaded execution.

Achievements

- Published a research paper on *Food Recognition and Calorie Estimation using AI*, presented at ICMDRI, ranked in the **top 5%** for innovation.
- Secured **1st place** in the JNTUH Essay Writing Competition, recognised for creativity, clarity, and analytical thinking.
- Successfully converted from Internship to Full-Time role at ShipConsole within 3 months through strong technical performance and project contributions.

Education

B.Tech – Computer Science & Engineering (AI&ML)

Dec 2021 – Jun 2025

Siddhartha Institute of Engineering & Technology, JNTUH – CGPA: 7.39/10

Certifications

- AWS Cloud Essentials Badge – Amazon Web Services (Sep 2024)
- Introduction to Artificial Intelligence – IBM SkillsBuild (Sep 2024)
- ServiceNow Micro-Certification – ServiceNow (May 2024)
- Java Programming Certificate – Great Learning (May 2024)
